

MyResearch Technical Specs

MyResearch is supported in a secure, professional data center, locked and guarded 24x7 with UCSF badge access required for physical entry. Data exists on a private network with its own firewall.

Specifics:

- Multi-homed Tier 1 network (Zero downtime SLA)
- 2 local daily snapshots of full ?crash consistent? server state
- Managed policy based enterprise firewall using Cisco and Microsoft technologies
- Managed VPN access. Managed Active Directory for ?Production Servers? and integration with UCSF Campus AD via trust.
- Managed Active Directory for "Production Servers" and integration with UCSF Campus AD via trust
